THE BEST & HOTTEST PRODUCTS

FROM PREGNANCY TO PRESCHOOL

hand-picked by MetroMoms

Mama Mio has toned our tummies, perked our pectorals, and revitalized our rears. We are bikini-ready thanks to the newest products in this magical line of skincare for everywhere: Haze your fat cells and get a sleeker silhouette with the Get Waisted Body Shaper. It works by increasing the breakdown of fat stored in the fat cells within your skin. It's packed with seven clinically proven waist-whittling actives and two anti-aging skin tighteners. Also check out Boot Camp for Tummies which makes tummy toning easy.

The founders of **P'kolino** believe children learn and grow through play. P'kolino is an entirely new concept in play furniture. Smart, multi-purpose products are designed to be fun, functional and stylish.

Silly Soft Seating is a fun loving combination of stuffed toy and modular toddler seating that has many features designed to support your toddler's developmental needs. The snuggly fabric is durable, removable and washable.

Barbara Armondin and Tina Wvysk, Founders, MetroplexBaby.com

Oeuf design company offers the simple and clean look of modern furniture, and incredibly so much more.

The new **Robin Collection** combines uncompromising quality with affordability. Made from 100% sustainable wood and painted in 100% natural, water-based paint, the Robin Crib is unbelievably green. Ideal furniture for the environmentally conscious modern parent!

Does your child have too many stuffed animals? The **Boon Animal Bag** is a fun and practical solution for rounding up all those soft critters and putting them to work. In addition to solving the stuffed animal storage dilemma, the Animal Bag is earth-friendly because - unlike most beanbag chairs - it does not require any foam fillers.

The brand new **Zippity** by LeapFrog is like a Wii Fit for the under-5 crowd ~ with an educational twist. Co-developed with Disney, the Zippity is the first interactive TV-based gaming system for preschoolers that combines full body movement, music, education, and fun.

The NEW **Advocate™ CS convertible child seat** by Britax introduces patented, side impact cushion technology, the latest advancement in child safety seats. This feature reduces side impact crash forces by 50%, by diverting crash forces away from the child. This seat also includes the new Click & Safe™ snug harness indicator, which addresses the leading child seat misuse.

The 2009 line of EasyWalker strollers includes the impressive and versatile **EasyWalker DUO** for larger families. For duo babies, duo infants or duo toddlers, the EasyWalker DUO can be adjusted for the smallest to the biggest, in any combination.

Go Baby InMat has style, function, and versatility. With a soft fleece surface and suede bottom, it won't slip, slide or twist under baby. Specifically designed for mommy-and-me workouts, baby yoga and tummy-time, this ultra-plush pad provides cushioning anywhere you take it. ❖
